

ROLLITE™ ROLLSCREENS

FORWARD

LOOKING

With s_enn®

The shades people, Rollite™ Rollscreens rolls out yet another state-of-the-art stainless steel sunshade, s_enn®. Visually simple and minimalistic, futuristically modern.

Ensuring optimum balance between energy savings and a view of the world, the innovation of s_enn® was developed together with the Fraunhofer Institut for Solar Energy Systems (ISE) in Freiburg, Germany. In all s_enn® promises to eliminate sun rays, withstand strong wind, is easy to clean and radically reduces air-conditioning bill with excellent cost/benefits ratio. It has also exceeded the stringent requirements of European standard test cycles for blinds.

s_enn® is pronounced 'sen' and means straight while the 's' is rooted in the main material: stainless steel.

Call **6284 0033** or visit **www.rollite.com**. Our Rollite team is ready to impress you with s_enn®
