

ROLLITE™ ROLLSCREENS

The Shades People

Leads the way with s_enn® and s_onro®

Redefining Shades Boundaries

Consider the very popular and steadfast range of Rollite™ Rollscreens to the state-of-the-art stainless steel sunshades s_enn®. Thanks to the latest welding technology, s_enn®'s stainless steel sunshades can be connected in such a way that it is stable but can still be rolled up. Also joining the family is s_onro® sun protection rollershades which provides both security and transparency — the ultimate in modern shades – a new form of aesthetic.

30 years on,
Rollite™ Rollscreens
continues to
stay ahead as
the shades people

s_enn® Stainless Steel Sunshades – Fascination through transparency

Rollite™ Rollscreens new family member s_enn® offers intention and aesthetics with 's' rooted in the main material: stainless steel while 'en' comes from the Japanese for 'veranda', or 'sen' means straight.

"Won't work" has been redefined with s_enn®. Hollow stainless steel sections that are 75% less heavy are moulded to the right form. Self-cleaning properties through its moulding technology is the added bonus. Tested and proven to reduce air-conditioning costs s_enn® has an excellent cost/benefits ratio.

s_onro® Sunprotection and Rollershades – Nothing is left to chance

It breathes. It allows light and air into the rooms as desired. Shades in perfect unison. The proof is in the use, the durability and function. Simple, yet modern. Nothing is left to chance. s_onro® does not allow any direct sunlight into the room once the angle of elevation of the sun exceeds 20°.

Rollite™ Rollscreens – The Shades People

Respected and recognized for its reliability, versatility, easy maintenance and energy saving, Rollite™ Rollscreens and its family of sunshades are not only in control of the heat as well as light, they shade against rain and strong winds; modern, effective and built to last. Its well respected quality-price ratio philosophy has garnered well all around South East Asia keeping most demanding clients satisfied since 1981.
