

# You Know But Choose Not to Know

**You're told: '...it's cheaper and it looks the same...!' In truth cheap sunscreen materials that look the same is more expensive at the end of the day. Why? Early replacement cost. Down time, calling for quotes and re-installation. More importantly, the toxicity of the material used may cause 'mysterious' health problems. Don't be fooled. Cheap is never cheap, especially in the business world. You Know. But Choose Not to Know!**

**PS: Make intelligent business sense, decide and ensure that your property is finished with the safe, environmentally friendly and quality value-for-money Rollite™ Rollscreens that last, and is safe. With a Clientele list that boasts of Fortune 500 corporations to private individuals who own landed properties, luxurious condos, Rollite™ Rollscreens is the common denominator.**

Over 30 years on, we're still here for you when you call, **6284 0033** or visit [www.rollite.com](http://www.rollite.com)
